

Nafpaktos Textiles S.A. recognizes its responsibilities and obligations toward the natural and man-made environment, and envisions creating a company whose name will become synonymous with high-quality products manufactured with respect for the environment.

To this end, Nafpaktos Textiles S.A. implements an Environmental Management System in accordance with the requirements of the EN ISO 14001:2015 standard and relevant legislation.

The Management of Nafpaktos Textiles S.A. is committed to:

- To protect the environment and prevent/reduce pollution resulting from its activities
- To continuously improve its environmental performance and its Environmental Management System,
- To minimize its environmental impact, address climate change, protect biodiversity, and conserve natural resources throughout the entire life cycle of its products
- To comply with the legal requirements governing its operations as well as other compliance obligations the company has accepted

With the implementation of the Environmental Management System in accordance with EN ISO 14001:2015, which pertains to:

Production, storage, and marketing of cotton yarns

The company identifies the environmental aspects of its activities and develops procedures and programs to continuously improve its environmental performance. Specifically, the management of Nafpaktos Textiles S.A. aims to:

- Conserving natural resources by developing a system to monitor their consumption
- Managing solid and liquid waste generated, prioritizing reuse and recycling
- Continuous awareness-raising, training, and education of staff on environmental issues
- Systematic monitoring of greenhouse gas (CO₂) emissions and implementation of targeted actions aimed at gradually reducing our carbon footprint on an annual basis.

This Environmental Policy is published and communicated to all stakeholders, and is implemented and supported by every employee of the company

The Chairman of the Board of Directors
Vasileios Polychronos
